National Science Week 2022

The Department of Science and Innovation's National Science Week (NSW) 2022 takes place from **1 to 6 August 2022**. The event is an annual celebration of the role and value of science and technology in our daily lives. The theme for this year's event is "**Celebrating the role of basic sciences in the modern world**".

This year, the National Science Week will be a hybrid event, consisting of online and in-person activities for school learners and the public. You can find the NSW programme [here](#). The Human Sciences Research Council is responsible for conducting the monitoring and evaluation of the NSW 2022.

Online National Science Week

The NSW has an exciting [online sessions](#) from 1 to 5 August. The sessions include topics like: The Importance of Basic Science in Space, Science Communication, Medicine, Computational Physics, and Applied Chemistry; Exploring the James Webb telescope; Grade 10 chemistry based online experiments; The History of Zero; Indigenous Mining; Understanding your soil, weather and traditional plants; South African inventions and the Role of Black women in Science.

If you join any of the [online sessions](#), please complete a short [participant satisfaction survey](#) for us.
